New Comet Coming
His Ghost Confesses
Ultra Modern Travel
By Arthur Brisbane

Copyright, 1934, by King Features Syndicate, Inc. All rights reserved.

In New Jersey primaries, Governor Landon, of Kansas, won the presidential preference vote by 4 to 1, carrying every county in New Jersey. That is the national political news.

Governor Herbert H. Lehman, of New York, announces positively that he will not accept a third nomination for the governorship. The recent death of his older brother, Arthur Lehman, may have influenced the decision of Governor Lehman, who had entirely abandoned his personal business while acting as governor.

A new comet, now approaching us, discovered and named for L. C. Pelletier, amateur astronomer, who works in a garage, will be the first comet visible to the naked eye since 1927.

Once men were in desperate fear of comets, until recently English clergymen prayed, "From the Turk and the comet, good Lord, deliver us." Church bells were rung to drive away comets. Now, men take a kinder view of them, knowing that they are attached to the sun and members of our solar family.

Some believe comets improve grape production. You may hear an old Frenchman speak of "the wine of the comet."

Perhaps this new comet with its long tail will carry away some of our depression. You will be able to see it with the "naked eye" late in July. It will be only 20,000,000 miles from the earth; not far, at comet-speed, but, no need to worry.

A Brazilian newspaper, *Diario Norte*, had a "news item" in Rio de Janeiro yesterday. Under a four-column "guaranteed genuine" photograph of "Bruno Richard Hauptmann's spirit," brought to earth by a medium, the newspaper published the confession of Hauptmann's ghost that he, Hauptmann, kidnapped Charles A. Lindbergh, Jr.

This article that, if you had any doubt about it, and if you believe in spiritualism, except "you wonder why the ghost went wandering off to Brazil to talk, instead of confining in Germany or New Jersey."

The big Hindenburg landed at Lakehurst at half-past six yesterday morning, on its second trip from Frankfurt to New York, and left again last night. Commander Lehman was disappointed because the trip took 20 minutes less than expected. Doctor Eckner was on board. The next time the ship comes, it will be no longer "news."

Columbus, who craved access to his caravel, would be interested to know that this airship was arranged to take aboard his husband, wife, children and their airplane, the last traveling as baggage.

When they reach Europe, the family will go touring in the airplane. That is "modern travel."

Jimmy Wedell, of Texas, wanted to fly in his war, they said: "You can't fly, you've got only one eye." Wedell said, "I'll show them," and he did.

He bought a rickety, dangerous, discarded army plane, crashed it up, flew, and got a one-eyed man can fly, if he has the right brain back of the eye.

Wedell held the world's record for land speed, and was killed flying when a student "flew to the controls." Now Harry P. Williams, wealthy man of the South, who backed Jimmy Wedell in his airplane building, is killed flying in his turn, only forty-two years old. Both accidents would rather have been killed flying than never to have had anything to do with flying in their chimeras. Dreams are made to stay on the ground and look up, they say.

Nothing succeeds like success, especially if increased national glory is part of it. Monday announced amnesty for 496 political prisoners confined in "penal islands," and amnesty is expected for all Italians living abroad, with an invitation to return to Italy and live in peace.

Mussolini might well believe that no anti-Fascist would have the heart to shoot at a man who has given Italy so high a place among the nations, restoring the old Roman title of Emperor to the reigning King.

In any case, Mussolini cares little about bullets.

Congressman Storch from New York proposes a "union of the United States with Canada."

Mr. Storch, who wants to establish "the greatest English-speaking nation of the world," will be disappointed in Canada's response. Canadians say they belong to the "greatest English-speaking nation."

Plan \$50,200 Refund In Worcester Beano

Worcester, May 21 — Thousands of persons who bought tickets in the \$200,000 beano sweepstakes, conducted by the Church of Our Lady of the Angels last fall, may get their money back, it was indicated today.

Attorney Daniel P. Callahan, counsel for the church, said that since the Federal government had halted distribution of the \$300,000 in prizes and tickets, that definite decision must be made by U. S. Attorney Francis J. W. Ford at Boston. Ford refused comment.

400,000 MAY SHARE IN SPLIT-UP

Worcester, May 21 — Thousands of persons who bought tickets in the \$200,000 beano sweepstakes, conducted by the Church of Our Lady of the Angels last fall, may get their money back, it was indicated today.

Duce Told MAIL FRAUDS 3 MEN WOULD 'Let Egypt Alone'

London, May 21 (AP)—The House of Commons broke into cheers today as Prime Minister Stanley Baldwin warned Italy that any interference in the affairs of Egypt would be regarded as an "unfriendly act." He hinted that British defenses in the Suez canal area would be strengthened.

Other attacks on Italy by members of the House followed Baldwin's sensational declaration, while Anglo-Italian tension was further increased with fears that Italian military authorities in Ethiopia have executed Lt. J. Romer, Bonner, a nursing orderly with the British ambulances unit, has been missing since Monday. He was taken prisoner following a battle by a mad dog.

DEAD PEIRCE'S GRL FRIEND ORDERED TO PAY BALM

Pictures on Page 3

For the stolen love of her husband now dead, Mrs. M. Vivian Peirce, of Hingham, was awarded \$3400 today by a Norfolk County Superior Court jury that heard her \$100,000 suit against Miss Josephine E. Lagerquist, Brookline author.

Mrs. Peirce accused Miss Lagerquist, owner and former editor of a trade magazine, of alienating the affections of the late Edward Peirce, Boston steamship company head.

The award was contained in a signed verdict returned in Dedham at 10:30 last night, after the jury deliberated seven hours, and opened in court this morning.

OTHER LOVE ALLEGED

Mrs. Peirce was married when she was 22 and her husband, after she had nursed him through an illness.

After her met Miss Lagerquist, he had been over friendly with her husband for 21 years and of finally stealing his affections and causing him to leave home.

Peirce was former president of the Crowell & Thurlow Steamship Company.

N. Y. RAID ALLEGED

During the trial, the respondent denied that she and Peirce ever were anything except business associates and friends. She owned and edited a trade magazine in which Peirce was a director.

Mrs. Peirce testified that she gave her 300 shares of stock in his steamship company, as an automobile, but admitted a gift of 100 shares of stock of the publishing company.

Mrs. Peirce testified that she found her husband with Miss Lagerquist in New York hotel. Several transgressions and reconciliations, she claimed, resulted from her husband's alleged persistent attractions to the respondent.

Medford, Everett Budgets Approved

The state emergency finance board today approved Medford's budget for the current year, amounting to \$2,539,416. A loan of \$100,000 for the city was also approved. The money will be spent for welfare relief through Works Progress Administration undertakings.

John C. Hilder, Author, Dies at 43

New Haven, May 21 (AP)—John Chapman Hilder, 43, author and former editor of nationally known magazines, died late yesterday in the New Haven hospital after a long illness.

He had been editor of the *De-Linear*, associate editor of *Vanity Fair*, editor of *Harper's Bazaar*, the *Elle* magazine, and others.

Long in Hospital For Arm Infection

Henry F. Long, State Commissioner of Taxation, was in the Phillips House today suffering from blood poisoning.

Doctors reported his condition as favorable. Commissioner Long was taken to the hospital after an infection had set in on his arm following a scratch received from a piece of metal last Saturday.

1500 Workers Walk Out

Syracuse, N. Y., May 21 (AP)—Approximately fifteen hundred men and women employees of the Remington Rand factory left their jobs today as the result of a disagreement with the management.

Frost Hits Crops! More Due Tonight

One good frost deserves an order as far as the weatherman is concerned, because today the forecast called for more fall business this spring.

"There will be frost, varying from light to heavy, all over England tonight, the weatherman promised. It will, however, warm up a bit tomorrow."

Money in Bank

"The \$300,000 set aside for the winners is in the bank now," Attorney Callahan declared. "Nothing can be done, however, without a Federal court order."

It was reminded that the total prize had been estimated at \$200,000 and asked if \$100,000 had been paid over to the promoters of the sweepstakes.

He said he didn't know the \$200,000 and would not discuss a reputed \$150,000 "split" for the professional promoters.

Then the query was made how many tickets had been sold. \$100,000 — could be paid 50 cents each for \$200,000.

Church May Act

"I guess the church could take care of that," Callahan replied.

He recalled that the church of the Holy Trinity had the \$100,000 first prize in the beano sweepstakes and Albert Schiavone of Endicott street, Boston won the \$7500 second prize. Beirs and other prizes were held up, however, when U. S. officials stepped in and started investigation of the sweeps.

LANDON'S SHEEP NEW JERSEY SASHES

LANSON'S BIG VOTE EAST SPURS CAMPAIGN LEADERS

By JOHN T. LAMBERT

Washington, May 21—Governor Landon's overwhelming victory in the New Jersey primaries has definitely smashed the "stop Landon" campaign among certain Old Guard leaders and virtually assured his nomination for President of the United States.

This was the second test of the Kansas governor's strength in the East and he won New Jersey by the same extraordinary majority with which he swept the presidential primaries in Massachusetts.

The indications were that Governor Landon polled about 50,000 votes in New Jersey as compared to about 100,000 for Senator Borah, the veteran Idaho statesman.

Governor Landon lost this because the only presidential possibility among all the Republican figures who had demonstrated his stands high in the esteem of voters both in the agricultural and industrial areas of the country.

NO DELEGATES VOTE
The triumphant New Jersey outcome now provides more than 300 delegates to Cleveland.

Those who have pledged themselves to support the nomination of Governor Landon.

Now does this count include the full strength that will come to Landon from such populous states as New York, Ohio, Pennsylvania and Illinois.

The latest reports indicate the majority of the Indiana delegation will support Landon. In him, they see the best prospect of victory in November.

Landon's popularity in his own section of the country has been manifested to the satisfaction of most of the eastern Republicans. Kansas, Missouri and Arkansas are unanimously for him and such states as Iowa and Nebraska were tagged by Landon's friends not to endorse him formally in order to avoid embarrassment to their own "favorite ones" or to avoid complications of the senatorial and other state contests to be waged there among Republican factions.

FARM BELT STRENGTH
The states in the agricultural belt are expected to swing their votes to the Landon standards after the perfunctory first ballot at Cleveland.

His strength in the rural centers became evident when a majority of the Republican voters of South Dakota wrote his name onto the

Roosevelt, Liberals Confer

Washington, May 21 (U.S.)—President Roosevelt, with Professor Felix Frankfurter at his side, sat down at a table at the White House with seven of the more liberal members of the Senate to discuss campaign issues.

When the conference broke up the Senators declared it was merely a "social evening," and that all subjects in the realm of government, economy and politics had been talked about.

They professed to be still mystified by the purpose of the meeting, which was called secretly. The conference lasted three and a half hours.

HOW FAR TO LEFT?
It was learned, however, that the President wanted to find out from the group how far to the left the Democratic platform would have to go in order to attract support of the Progressive, Farmer-Laborites and union labor.

Asked whether any conclusions were reached, Senator Shipstead (Wis.) answered: "I don't know."

"Did you ever hear of conclusions being reached at any conference?"

Professor Frankfurter arrived with Senator Wheeler (D.V.) of Montana, and remained at the White House after the others had left.

EXTREME LIBERALS
It was a non-partisan group but confined to the most extreme of Senate liberals and all supporters of "New Deal" policies.

The list included Senators Wagner (D.N.Y.) of Washington, members of the Black bloc investigating committee, Norris (R.) of Nebraska, sponsor of Tennessee valley, Mississippi valley and other hydro-electric development legislation to put the government in the power business.

Also La Follette (R.) of Wisconsin, champion of the popular "black slip" publicity of income tax returns and other tax proposals to hit big business, and Shipstead, strong backer of the outworn agricultural adjustment act and other farm legislation.

TODAY'S Boon-Doggle
To persons familiar with the New Deal's vast activities in the Tennessee Valley, at Passamaquoddy and at Grand Coulee, the \$750,000 Sabana Canyon Dam appears to be in one respect a profound mystery.

Here is a dam 250 feet high, constructed apparently for the sole purpose of creating a recreational lake for boating, fishing and fishing.

In the Presidential letter authorizing its construction nothing whatever was said about power, nor were any funds allotted for the construction of an electric generating plant.

Investigation reveals, however, that the dam is to be constructed in such a way as to permit the installation of a power plant whenever Mr. Dealley is ready to find such installation expedient.

A new yard stick, it seems, is in the making.

Recommending of Senator Borah in New Jersey was understood to have strengthened the entire ticket for the national contest in November.

Governor Landon's Principles

EDUCATE THE PUBLIC

MR. KALTENBORN: Governor, just how do you think we should go about restoring confidence?

Governor Landon: We have a presidential campaign coming on, and, contrary to some opinion, I believe that a presidential campaign can be made a great means of public education, one that will inform the public and give the people a chance to study and understand what the real issues are.

You must realize that for three and a half years we have had only one side of the story. We have been up against the greatest political propaganda machine that this country has ever seen. The worst of it is, it is being paid for out of the public treasury.—From Mr. Kaltenborn's radio interview with Governor Landon, on May 8.

Governor Landon here draws a sharp distinction between a CLEAN campaign conducted wholly in the interests of the WELFARE OF THE PEOPLE and a campaign conducted for PURELY POLITICAL GAIN—a campaign which Jobmaster-General Farley says will be the "DIRTIEST in his history."

In answer to Mr. Kaltenborn's question of just how public confidence should be restored, Governor Landon's answer is that confidence can only be restored when the people have "A CHANCE TO UNDERSTAND AND STUDY WHAT THE REAL ISSUES ARE."

These issues resolve themselves into ONE SINGLE ISSUE, and Governor Landon has himself defined that issue as the RESTORATION OF THE SYSTEM OF OLD-FASHIONED AMERICAN INDIVIDUALISM TEMPERED BY A WISE REGULATION OF ITS ABUSES.

There can be no full confidence in an alienated regime that expends all its energies in the direction of absorbing the earnings of the people in the shape of taxes and building a giant TREASURY-FINANCED bureaucratic political machine to perpetuate itself in power.

"WE HAVE BEEN UP AGAINST THE GREATEST POLITICAL PROPAGANDA MACHINE THAT THIS COUNTRY HAS EVER SEEN," says the Governor.

It is to the interest of this machine—the Roosevelt-Farley machine—to see that the country is kept guessing and that there isn't TOO MUCH "CONFIDENCE."

For a recrudescence of FULL CONFIDENCE among industrialists and workers will mean the defeat of the machine.

It is for this reason that Governor Landon will undoubtedly give us the finest and cleanest campaign along educational and non-political lines that the country has seen in a generation.

Two Die in Spanish Riots
Madrid, May 21 (AP)—Two persons were killed and eight wounded, reports from the provinces said today, in fresh outbreaks of violence between Spain's political left and right. Strikes were declared in several more isolated towns.

Three Badly Hurt In Auto Crashes
Three men were critically injured in two separate auto accidents early today, one suffering a fractured skull and the others cuts, bruises and possible internal injuries.

Charles S. Rotterolosa, 42, of Albion street, Albany, was taken to Cambridge City Hospital after his car had been in collision with another machine at Harvard and Prospect streets, Cambridge.

Reidera a fractured skull, he suffered severe cut and bruises about the head and face.

Norman McLeod, 25, of Broadway, Freeport, N. Y., and William McCarthy, 24, of Hartford place, Roxbury, were pinned beneath their wrecked machine after it crashed into Elevated pillar on Albany avenue near Commercial wharf. They are at Maymont Hospital and are in the danger list.

Dog's Life
Tulsa, Okla., May 21 (AP)—E. C. Hanson, president of the Society for Prevention of Cruelty to Animals, peered through the window of an automobile parked in the sun and saw a half-starved dog forlornly.

Unable to open a door, he broke a window, revived the dog and drove out a complaint against the owner.

PONSSELLE LAUDS BALLAD CONTEST
New York, May 21—Carmela Ponselle, mezzo-soprano of the Metropolitan Opera Company, today expressed the opinion that the Bertola Bailey Ballad Competition of the Hearst Newspapers would spur interest in popular music. She said:

"Thousands of ambitious song writers who have had no outlet for their work since the war are competing, which I understand will bring about a new era in popular music."

"I am sure that the contest will be a great success. I am sure that the contest will be a great success. I am sure that the contest will be a great success."

Dea Plans To Draft Lehman

Washington, May 21 (AP)—Sharp political interest attached today to efforts of Democrats, led by President Roosevelt, to persuade Governor Herbert H. Lehman, of New York to run for re-election.

Sudden announcement from the New York State election commission that he would not seek a third term brought immediate expressions of hope that he would change his mind. Signs of a "draft Lehman" movement were in evidence.

Democratic leaders lauded his record and here in the presidential vote-getting powers he displayed in 1934. He carried the New York State by more than 500,000 votes, a record.

BLOW TO "DEAL"
New Dealers were loath to lose the strength they expected Lehman to lend his party's ticket next fall.

The governor made his brief announcement at Albany today.

"I feel the time has come when I may ask release from the cares and responsibilities of the governorship."

It was noted that when Lehman entered politics in 1928 under the wing of Mr. Roosevelt, he severed all connections with his vast business empire.

He had been a successful manufacturer, banker and director of a number of large corporations.

President Roosevelt yesterday expressed a hope Lehman would run again. He said he had known for some time of the governor's intention.

"LOSS" SAYS FARLEY
Chairman of the Democratic National Committee said Lehman's decision meant "a loss to the state and the party."

No indication came that the governor's return to private affairs, however, and what effect a draft movement would have remained to be seen.

Whether the New York situation was discussed last night at a White House conference attended by several legislators was not known. Senator Wagner was among the senators at the session.

G. C. P. DELEGATES TO ORGANIZE RACE

By BERNARD J. DOHERTY

In a surprise move, six of the 33 elected Massachusetts delegates to the Republican National Convention have signed to call for a meeting of the entire delegation Saturday afternoon at the Copley Plaza Hotel.

The letter is said to be signed by Charles Francis Adams of Concord, Congressman Allen T. Treadway of Stockbridge, Robert F. Goodwin of Concord, Walter B. Lovett of Melrose, George F. Booth of Worcester, and Charles B. Ladd of Everett.

The meeting's purpose is undivided but it is understood that an attempt will be made to organize for the convention through the election of a chairman and other officers.

3 FAVORED FOR CHAIRMAN
Although former Lieutenant Governor Gaspar G. Bacon has been tendered strong support as the delegation's head man, some sentiment exists for Adams and Cecil E. Fraser of Cambridge.

Treadway has been regarded as acceptable to a strong majority of delegates for a position on the convention resolutions committee.

One delegate, whose position was obscure, answering an invitation to join the delegation, wrote his name in the Massachusetts column in sympathy with the movement.

"If I were not an unopposed delegate, I would sign in a minute. If I am one who shall act in accordance with the vote of the people as expressed in the primary."

Beyond extending an invitation to join, the club has refrained from attempting to exert pressure on the delegates.

MANY OFFER TO HELP
Indicative of the belief that Governor Landon has as good as won the nomination, many prominent citizens, not closely connected with politics, have been offering their services to the Landon Club for the full campaign.

Landon's decisive preference in the New Jersey primary is regarded as having clinched his nomination.

Italian-American Landon Clubs will be organized tomorrow night at a dinner at the Parker House. Leaders at the dinner will include Alfonso Lambase of Boston, former Assistant Attorney General Stephen Bicaluso, Salvatore Marino of Boston, Joseph Merenda of Medford, Vincent Cella of Medford, Michael A. Frede of Arlington, Louis Senale of Beverly, Elvira Caba of Watertown, Guy Binotti of Hingham, Anthony Donato of Duxbury, James Donatunna, editor of Gazette of Massachusetts, and D. S. Gertzel of Wintthrop.

Hundreds Killed in China Quakes
Shanghai, China, May 21 (AP)—Earthquake reports from the Central China, caused extensive damage and terrorized the superstitious natives. Reports reaching Shanghai today said:

Seven hundred were killed and injured Saturday at Pinghsin, Szechuan Province, by a severe shock, the report said. Similar quakes occurred yesterday in Chingting, Szechuan Province, and Lanchow.

144 Cambridge Parkers Tagged
Starting a drive on overnight parking, the Cambridge police last night tagged 144 automobiles. Orders for the drive were issued by Chief Timothy S. Leahy.

5000 See Launching

NAVY HEAD AT QUINCY

Five thousand persons today saw the launching of the U. S. S. Vincennes, a sister ship of the cruiser Quincy, at the Fore River shipyard in Quincy.

A bottle of champagne was broken over the yacht-like bow by Miss Harriet V. Kimmell, 18, daughter of Mayor Joseph W. Kimmell of Vincennes, Indiana.

Her mother and father and a score of friends from Vincennes saw the launching, with Mayor Thomas S. Durgin of Quincy, members of the Quincy City Council and high naval officials, including Admiral William H. Standley, acting secretary of the navy, and Admiral W. T. Gherardi, chief of the first naval district.

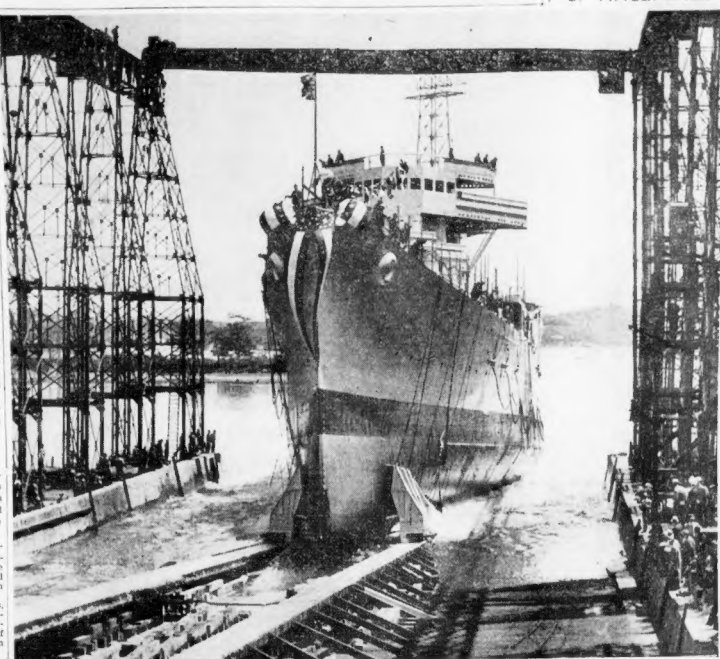

Miss Kimmell was guest of honor at a luncheon at the Neighborhood Club later.

One of Eight

The Vincennes, which when completed will have cost \$10,000,000, is one of eight cruisers of 10,000 tons displacement which were allotted to yards in various parts of the country.

These cruisers are to be powerfully armed with eight and five-inch guns and are considered the highest development yet attained in the heavy cruiser class, for both strength and speed.

The Vincennes has twin funnels, set close together, a long forecastle deck and pole masts, surrounding deck-houses, instead of the tripod masts which have been in vogue for some time.

Miss Harriet V. Kimmell, 18-year-old daughter of Mayor Joseph W. Kimmell of Vincennes, Indiana, is shown breaking bottle of champagne over bow of the new cruiser Vincennes during launching ceremonies of the ship at Quincy today.

Five thousand persons, including Mayor Thomas S. Durgin of Quincy, members of the Quincy city council and high naval officials, witnessed launching.

(By Presses from International News Photograph Service.)

CHAMPAGNE ON SHIP'S PROW BY DAUGHTER OF VINCENNES

BONUS Hour Set For JUNE 15

VETS TO STAY IN ONE NIGHT

Veterans expecting bonus "baby bonds" should be in their homes between 5:30 and 11 p. m. on June 15, Postmaster Peter F. Tague announced today.

In those hours postmen will be delivering the first of the bonus bonds and delivery will be made only to the veteran addressed.

Deliveries will be made out of 31 carrier stations in the district.

Schools for Cash

Twenty units will be established, under plans still tentative, for the purpose of instructing veterans regarding the manner of converting their bonds and checks into cash.

These will be in 14 armories and six town halls.

About 400 postoffice clerks will be on duty of these units to make final check on identification of the bond recipients and to instruct them regarding cashing.

Government checks which will be issued to make up the difference between the bond totals and the amount due the veterans will not be cashed by the government, Postmaster Tague said.

BROKER FIGHTS SEC CHARGES

The right of the Federal Securities and Exchange Commission to investigate transactions on the Boston Stock Exchange, when no interstate deals were involved, was challenged today at a hearing held by the commission at the National Shawmut Bank Building.

Validity of the hearing was challenged by Francis T. Leahy, an attorney for Thomas F. Gagen, a Boston broker and member of the Stock Exchange.

Robert P. Reader, commissioner conducting the hearing, said he would force Gagen's objection to Washington but would not postpone the hearing.

Former Governor Eugene N. Fox was under subpoena to appear as a witness later in the hearing.

The first witness was George A. Rich, secretary of the Boston Stock Exchange, who read from records of daily trading in the stock of the East Boston Land Company last year.

At the opening, James J. Caffrey, New England administrator for the Securities and Exchange Commission, said Gagen allegedly traded in such a way as to boost the market quotation of the stock from \$175 to \$125, for his own benefit. This was done in part by "wash sales," he said.

Robert P. Reader, commissioner conducting the hearing, said he would force Gagen's objection to Washington but would not postpone the hearing.

At the opening, James J. Caffrey, New England administrator for the Securities and Exchange Commission, said Gagen allegedly traded in such a way as to boost the market quotation of the stock from \$175 to \$125, for his own benefit. This was done in part by "wash sales," he said.

Love in Grave Worth Cash

MARY PEIRCE

MRS. M. VIVIAN PEIRCE

Damages of \$3,100 were set by a jury in Norfolk Superior Court today for Mrs. M. Vivian Peirce in her \$100,000 love suit against Miss Josephine Lagerquist. Mrs. Peirce is shown with her daughter Mary Peirce. She sued for the love of her husband after his death.

Slayer Suspect's Guard Increased

Wicasset, Me., May 21.—An extra guard will be placed outside the jail here today in compliance with the wishes of Reuben Brewer, Ocean Point lobsterman, awaiting trial on a charge of murdering his wife.

Lindy Out of Gas on 9th Anniversary

Seven Oaks, Kent, Eng., May 21 (AP)—On the ninth anniversary of his "Lone Eagle" flight across the Atlantic, Colonel Charles A. Lindbergh ran out of gas today.

When the motor "cooked," however, the only resultant inconvenience was a 150-yard walk to the nearest gas station.

The colonel was driving his small American car on a morning spin through the countryside.

He returned to his residence, Long Barn, to spend the rest of the day with Mrs. Lindbergh and their son, Jon.

Fitzgerald Happy Over Grandchild

William T. A. Fitzgerald, registrar of deeds for Suffolk County, was the happiest man in Pemberton square courthouse today.

Boasting and passing out cigars he walked into the courtroom presiding and announced that a grandchild had been born in the Fitzgerald family.

A nine-month boy was born last night to his daughter, Mrs. Robert J. Bond of Chicago, the former Ruth Fitzgerald. It is the registrar's fifth grandchild.

Youth's Bridge Stuck in Throat

Philadelphia, May 21 (AP)—George Mogill of Detroit, 19-year-old Wayne University medical student, hoped today for removal with in 24 hours of a dental bridge which has been lodged in his throat since May 12.

The youth's father is a Detroit cantor. A committee of Cantonese Association raised funds to finance the trip and an operation in Temple University Hospital.

Dives Into Channel To Rescue Man

Continued from First Page

opposite the new parcel post building in South Station.

The fire captain in the half-drowned McDonald above water, with the aid of a rope thrown from the high channel wall, until Thomas Linton, John Kerrigan and James Whittle, tenders at the Summer street drawbridge, reached him with a boat.

RESCUE OF HEROISM

Rescue and reward were taken to the bridge boat, from where McDonald was removed to City Hospital.

Retrieving his uniform hat and coat, Captain Crehan dove to fire headquarters to dry out.

Not until reporters arrived were officials there aware of the captain's thrilling rescue.

Blushing, and ducking his head, he waved the incident aside as just his part of the day's work and only at the request of Commissioner McLaughlin would he say anything.

He injured his hand in the rescue. "I was driving along Berchester avenue when I saw a crowd gathered at the railers," he said.

HERO'S REWARD

"I leaped out and saw a man floating in the water. I dived my hat and coat and jumped in. I don't remember how far it was. I just said a prayer and leaped in. I grabbed him and held him up until somebody threw us a rope. It may have been a minute or ten minutes.

"The fellow was chattering terribly and all he said was: "Give, I wish the fellows in the boat would hurry."

"The boys in the drawbridge's boat did a fine job in coming to our rescue."

EMBALMER IS GRILLED Wife's Murder Puzzles Police

Oregon, Ill., May 21 (AP)—Guy Tallmadge, M. Rockford, Ill., embalmer, was held for further questioning today about the death of his wife, which he told authorities occurred at the hands of a ruthless gunman in a holdup at a lonely cross-road.

State's Attorney S. Donald Crowell said he wished to check some details of Tallmadge's account of how he was lured into his automobile.

Tallmadge had told officials a woman stopped their car, robbed him of \$2 and some change, stripped him of his wife's fingers and then shot her in the back of the head as she fled screaming to escape the robber's attempt to force her into his automobile.

Investigators found Tallmadge empty wallet, his wife's purse containing \$40, her right hand glove and his flashlight near the place where her body had lain. Crowell reported the plot and flashlight were blood stained.

Follow-up woman Florence Stanton of Rockford informed officials Mrs. Tallmadge had approached her some time ago to complain Tallmadge was "running around with other women."

The time elements and the lack of a written description of the "shabby stranger" bulked large in the investigation.

TIME ELEMENT PUZZLES

Tallmadge told officials he and his wife left Chicago, two miles from

the cross-roads, at 8:15 p. m. Tuesday. Rufus Falkner, a farmer, informed them he drove past that junction at 8:30 and saw a machine with a man alone at the wheel at the side of the road.

Abs Mahanah, another motorist, was stopped by Tallmadge about 9 p. m. and apprised of the situation.

The prosecutor disclosed he would present the case in a grand jury after the inquest Saturday.

Roosevelt Mother's Condition 'Good'

Hyde Park, N. Y., May 21 (AP)—The condition of Mrs. Sara Delano Roosevelt, 82, mother of the President, who was injured in a fall, was reported "excellent" today by her attending physician, Dr. Scott Lord Smith, of Poughkeepsie.

Dr. Smith said Mrs. Roosevelt fractured the great trochanter, a small projecting hip bone, when she tripped and fell while visiting the President's daughter, Mrs. Anna Roosevelt, in New York a week ago.

The physician added, however, the injury would have "no permanent results."

He said she would be confined for several weeks.

Mrs. Roosevelt concealed the accident from her son for five days, but inadvertently let it slip while talking to the President on the telephone. He immediately arranged to leave Washington Friday to spend a few days with her and in the meantime urged her to call a physician.

Proof in Black and White

Document Shows Reds Stir Arabs

Herewith is presented the first of a new series of articles by Isaac Don Levine dealing with the Communist-inspired uprising of the Arabs, which already has threatened international complications and death and untold misery to Jewish refugees in Palestine.

ARTICLE ONE

By ISAAC DON LEVINE

"Long live the revolt of the Arab masses!"

This is one of the concluding slogans in the appeal issued by the Communist Youth League of Palestine on April 24, in the midst of the bloody attacks on the Jewish colonists.

The text of this first Communist proclamation has just arrived in this country. It was published in "The Day," influential Zionist newspaper, on Sunday, May 10, with the following comments:

"Two weeks ago we received a cable concerning this document from Naehlat, secretary-general of the Zionist Workers' Party in Tel Aviv, in which he pointed out the infamous role played by the Communists in the present crisis in the Jewish homeland."

Proved by Text

"The local Communists attempted to evade the responsibility and heavily denied that the Communists in Palestine demanded the stoppage of Jewish immigration to the Holy Land."

"We are printing today the literal text of the Communist proclamation, issued by Naehlat, which proves in black and white how great is the treachery of the Palestinian 'comrades.'"

This document was also published in "The Jewish Morning Journal" with the comment that its text "confirms all our previous reports of the Communist treason and of the shameful Commission

charge against the Jewish self-defense."

It is indeed a remarkable document. The Palestinian section of the Communist International here appears as the champion of Arab nationalism. It arraigns the Jews for attacking the Arabs at a time when the Arabs were killing Jewish settlers.

It accuses the Zionists of instigating the Arab attack upon the Jews to fight the Zionists. It charges the Jewish self-defense with provoking the bloodshed. And it unequivocally calls for the stoppage of Jewish immigration into Palestine.

Storm Nears

The text of this Communist appeal, as given in "The Day," follows:

"A revolutionary wave is spreading over the land. It is a link in the chain of springing in Arab countries which are striving to throw off the yoke of imperialism. The Zionists are now reacting while they have seen in the course of years of attacks against the Arab masses... The cup is now full, and has overflowed into a revolutionary tide. The country is now in the midst of a storm. It has gone on strike and demonstrated its readiness to fight for national liberation from imperialism and to put an end to the bloody attacks by the Zionists..."

"The Zionists are now driving the government to suppress the Arab mass struggle. The Zionist youth organizations are conducting a murderous race-hatred campaign in the name of the Zionist National Ideals. And the Jewish self-defense is perpetrating systematic provocations in bloodshed..."

Plea to Youth

"Comrades! The Palestinian Communist Youth League which works international brotherhood between the Jewish and Arab youth appeals to the Arab youth masses to continue and to extend their general strike and to fight to the end for their national and social emancipation."

"It appeals at the same time to the Jewish youth to withdraw from participation in the bloody Zionist attack, to stop its

His Holiness, Pope Pius XI, Scores Communism

His Holiness, Pope Pius XI, is shown as he visited the Roman Catholic Press Exhibition at Vatican City, Italy. In an address to a group of international Roman Catholic publishers the

Pope described Communism as "one of the greatest dangers menacing the world." It was his second attack on Communism in as many days.

TOWNSEND HITS FRAUD CLAIM

Continued from First Page

before the "Townsendgram" appeal was made for additional funds. The witness explained he had little or nothing to do with raising money and his province was the "philosophical and ethical" aspect of the movement.

He said Robert E. Clements, former national secretary and co-founder, and others in the business office handled the financial end of the program.

The "Townsendgram" appeal for funds carried the name of Clements and Charles H. Randall of Los Angeles, chairman of the Townsend national strategy committee.

"TOWNSENDGRAMS" Sullivan introduced testimony taken by a subcommittee in California, in which Randall said he signed the original appeal for the "congressional fund" but denied he signed the "Townsendgram."

Randall, Sullivan said, testified he had "nothing whatever to do with the signing of the 'Townsendgram'." adding:

"Randall claimed his name was forged to these 'Townsendgrams.' The 'Townsendgrams,' in addition to an appeal for money, reported 'several notable victories' for the Townsend cause."

Asked about these victories, Dr. Townsend said he "supposed what is meant was that some congressmen had been approached and were more cognizant of our plans."

The "Townsendgrams" were dated March 22, 1935. Sullivan brought out that the appeal went to 500 clubs and with strings to "hurry," suggested a "quota" of 15 cents a member.

He read a number of letters from various "Townsendgrams" acknowledging the request for funds and noting enclosure of contributions.

"How do you know that?" Dr. Townsend asked.

"We know it and have the records," Sullivan replied.

Dr. Townsend denied the appeal was discussed in the presence of C. Otto Moore, Denver, and other Townsend leaders and that Moore protested the appeal and said he would prosecute those who made it.

Sullivan read into the record testimony taken by a subcommittee in Los Angeles from Moore.

Moore testified he left the Townsend organization in April, 1935, after six months' membership. Representative Collins (R) California, a subcommittee member, objected to the reading of Moore's testimony on the ground it was part of the record. Chairman Bell (D) Missouri, overruled the objection and was sustained by the committee.

Moore's testimony generally was critical of the Townsend organization and its methods.

British Troops Police Holy City

Jerusalem, May 21 (AP)—In the first step toward declaration of martial law to halt bitter Jewish-Arab outbreaks, British troops took drastic military measures in Palestine today.

Following arrival of the British destroyer, Bagle, at Jaffa—the first British warship ordered to the Holy Land since outbreak of terrorism—British troops took over protection of all public buildings in Jerusalem.

Man Given Life As Woman Slayer

Worcester, May 21—Harry A. Mello, 48, unemployed painter, pleaded guilty today to second degree murder of Mrs. Viola E. Hall, 38.

He was sentenced to life imprisonment by Judge Thomas J. Hammond in Superior Court. Mello killed Mrs. Hall with a bread knife February 12. He said the killing was a "charity mistake because I loved her."

HOLD 3 IN FATAL STREET FIGHT

Continued from First Page

State Prison on the morning of February 22, 1934.

Police declined to reveal the names of the other two men under questioning in connection with the fight, which killed Patrick Sullivan, 35, of Tees street, Arlington, and resulted in a fractured skull for Daniel Sullivan, 42, of Fordham street, Arlington, father of two children.

All three under questioning, however, were said by police to have gone voluntarily to Cambridge police headquarters.

Daniel Sullivan was in a critical condition today in Cambridge City Hospital as a result of the free-for-all that attracted a crowd of more than 200.

One of the men turned back while standing outside of the drug store of Mayor John D. Lynch of Cambridge. Witnesses told police that three men walked down Massachusetts avenue toward Harvard square. They said that one of the brothers apparently made a remark as the men passed.

One of the men turned back while standing outside of the drug store of Mayor John D. Lynch of Cambridge. Witnesses told police that three men walked down Massachusetts avenue toward Harvard square. They said that one of the brothers apparently made a remark as the men passed.

Sullivan fell to the sidewalk, hitting his head heavily on the curb. The other two men attacked Daniel Sullivan, knocking him down. With both victims helpless on a taxicab.

Police questioned the driver who said he had witnessed the fight and had driven the three men to Harvard square. He gave the police a description of the assailants.

Police questioned the driver who said he had witnessed the fight and had driven the three men to Harvard square. He gave the police a description of the assailants.

King Gets Labor Statistician Job

Joseph F. King of 108 Fuller street, Dorchester, was promoted today from the position of statistical inspector to statistician in the State Department of Labor and Industries by Commissioner James T. Murray. He succeeds Miss Margaret Shea of Dorchester, who recently retired.

Kill Repeat Vote

The plan for the people to vote at the next state election on the question of repealing the present pre-primary law is today in the limbo of lost causes. The senate voted it down by 19 to 12.

Militant Pastor Declares:

Communism Ends Home, Robs Mother of Babes

This is the third of a series of revealing articles by the Rev. Rex A. Mitchell, pastor of the First Baptist Church of Paso Robles, California, detailing the minister's fearless attack against the insidious, destructive doctrines of Communism.

By THE REV. REX ARTHUR MITCHELL.
Every face, like every thumb print, is different. History is made up of the individualism of outstanding personalities.
Our present civilization is the direct outcome of the untiring efforts and industry of great individuals.

Under our constitutional form of government, the state exists for the individual.
In a Socialistic or Communist state, the individual exists only for the state.
The Bible sanctions government for the protection of the home and individual.

The Communist manifesto destroys the home and the rights of the individual for the sake of the state.
Our representative form of government is the servant of the people for the welfare of society.

Mothers Robbed

Communism declares that the masses exist for the welfare of the government. The Bible and the Christian religion teach the individual and bulwark the home.
Communism and its atheistic religion make a war of the individual and destroy the home. Women are the property of the state. Marriage is discouraged because it is private ownership of property. American love marriage is a partnership, not an ownership.
Communism robs the mother's arms of her small baby and turns it over to the state. All love and parental authority are abolished.

Under individualism this nation marched forward and took first place among the nations in less than 150 years. Why destroy the thing that has made us great?

Are we so shallow in our thinking that we believe the lie of our enemies? The lie is that private ownership of property, inheritance and production for profit brought on the depression. The truth is—the international intrigue of enemies of the Republic form of government is centralizing the wealth of the world to establish world supremacy of the proletarian dictatorship.

If they be able to convince us that what actually made us wealthy and powerful suddenly produced bankruptcy and unemployment thousands have already believed this. They are deceived completely. Will the millions join their ranks?

Wake up and think before it is too late!

Masses Slaves

Solidarity means collectivism and centralization of power and authority. It does not mean the government of the proletariat. The political boss, consisting of ten men, rules Russia. The masses are the slaves of this bureau; the world proletariat means "the poorest class of society—those who own no savings, property, business, insurance or other investment, and hire no labor."

In order to use this large group to gain their own interests, the leaders of Communism make false promises of equality and democracy over the bourgeoisie. The bourgeoisie are the property and business owners; the capitalist. Individuals have had their wages and made its mistakes, but it does encourage industry and progress.

In spite of the mistakes, it has succeeded to a marked degree.
Collectivism not only has its abuses but it is destructive to industry and progress. It has never succeeded in any of its experiments. No great world enterprise has come through collectivism. In Russia wherever any true progress is made it is as the result of the leadership of men trained under an individualistic society.

Anarchists, atheists, communists, socialists, new dealers and the devil on the American pulpit join in the grand chorus for collectivism.

These advocates would reduce 150 millions of people to the level of the degenerate of our society. All men are born with equal rights. However, all men are not alike; all men are not equal.
All men have not the same desire, the same intelligence, the same initiative, the same desire to work. Some are lazy, some are industrious; some are brainy, some are dumb; some are leaders, some are followers; some are kind, some are cruel; some are savers and some are spenders.

'Pulpit Trailers'

Only an insane man will try to make us equal. Only a fool cannot see that we are all different.

Greed, covetousness and hatred are the three underlying causes of all the propaganda favoring the liquidation of the bourgeoisie, the middle class, and the aristocracy. The Communist preacher howls about the greed of the wealthy. America needs a message against the greed, covetousness and hatred which is producing the class struggle.

Enough money is lost on strikes to build and operate the business to the benefit of the owner.
We must not allow alien agitators to stir up riots, strikes and advance the class struggle for world revolution.

But America, get your eyes open and see that the greatest menace is from the traitors in the pulpit. They are using the protection of free speech of "cry change" in our economic system and constitutional government, not knowing that they are crushing American liberty to death in the name of the proletariat.

Turnabout

Aurora, Ill., May 21 (AP)—When Mrs. Matthew Kersch sued for divorce she obtained a injunction restraining her husband from disposing of his property. Kersch then petitioned the court for an order directing her to pay his temporary alimony.

"This may be a laughing matter in some people, but it is serious business to Kersch," said his lawyer. "He needs the money."

(From an International News Photograph Service)
Rev. Rex A. Mitchell, pastor of the First Baptist Church of Paso Robles, California, who, in a stirring attack on Communism, calls upon America to "wake up."

BUILDS DEATH TRAP

Arthritis Victim Ends Suffering

Providence, R.I., May 21—Arthritis had been plaguing 60-year-old Larry Richards for so long he decided to put an end to it today and he did, by ingesting one of his automobile, a hose, a bed and a blanket.

The automobile, with motor running, he parked outside the bedroom window of the Bradford street cottage he occupies here.

The end of the hose he attached to the exhaust pipe of the automobile.

Then he climbed into bed, put the hose end of the hose in his mouth

and wrapped a blanket tightly about his head.

He had left a message with Mrs. Nan Hancock, a neighbor, to be called at 7 a. m. She called Police Chief John Williams instead.

Williams examined Frank G. Cass and there was a note beside the body. It was addressed to Miss Helen Richards, sister of the dead man and resident here. It read:

"I can't stand the suffering any longer."

Richards was a retired Philadelphia sales executive and a World War veteran.

Kiley to Ask Vote On "EI" Removal

The fight for the removal of the Elevated structures between Forest Hills and Egleston square will be resumed in the House of Representatives today when Representative James J. Kiley of Charleston will ask that the people of Boston be allowed to vote on the question.

The representative will put before the bill in the form of an amendment to the bill providing for a referendum on the matter of public ownership.

RAILS SETTLE JOB PROBLEM

Washington, May 21 (AP)—Committees for railroad labor and management have reached an agreement on matters of protecting employees displaced in rail consolidation.

Members of the committees made this known to newsmen just prior to President Roosevelt's announcement. The long-standing problem of employee protection, which drew President Roosevelt's attention several months ago, was finally solved at 3 a. m. today, committee members said.

The agreement provides for a scale of dismissal compensation, ranging up to a maximum of one year's pay for employees who have served 15 years or more. At their option, the workers could receive a percentage of their regular salary over a designated period.

MINNESOTA'S STUDENTS RAP DEAL'S DEBTS

Minneapolis, May 21 (US)—Student leaders at the University of Minnesota today joined in the growing protest of college men and women against the policies and practices of the Roosevelt administration.

Basis for the reaction was the charge that New Deal extravagance was accumulating a debt which would rest squarely on the shoulders of future taxpayers.

"Payment of this debt would be at the expense of the present generation," said a statement of the administration's spending committee, "and it is certain that the federal government entering a utility business, or any other business, having visited Washington, and observed the slanted administrative methods of the New Deal, is not believing by should extend their activities in any direction."

William Proctor, a Minneapolis social student and former Gopher football and track star, indicated his radical student subject to "New Deal's inclination toward socialism."

"Such a system if adopted," he said, "would inevitably lead to the hands of the profession, though forcing the physician to be a politician."

Students also protested the "The Old Poster Plan" and "Signaling R With the Rose" in the Second Congressional Church, Codman square, tomorrow evening.

In the first play are Marjorie Ashe, Mary Hewitt, Helen Wojtasinski, Phyllis Hersey, Eleanor Bentley, Walter and Katherine Heller.

In the second comedy are Carol Bourne, Harriet Fisher, Natalie Peterson, Geraldine Rigwood and Louise Boudier.

RECEPTION CHAIRMAN FOR KENNEY TESTIMONIAL

Charlie Mungie, veteran newspaperman, of Brookline, who will be chairman of the reception committee, at testimonial dinner to be tendered to Jack Kenney, manager of the circulation departments of the Boston Evening American and Sunday Advertiser, at the Hotel Statler, tonight.

MRS. HOFF WINS FEDERATION VOTE FIGHT

Not a ripple of applause, nor a gasp of surprise broke the breathless calm attending the reading of the slate of incoming officers at today's closing session of the spring convention of the Massachusetts Federation of Women's Clubs.

Even the bombshell disclosure that Mrs. Cliff Hoff, Jr., of Turners Falls, nominated when the Western delegates demanded representation on the slate ticket, had won the hotly contested election for fourth vice-president failed to draw the vaguest response from the 2000 clubwomen assembled in Swanwick's New Ocean House.

Mrs. Thomas J. Walker, retiring president, requested the women to refrain from making any demonstration during the reading of the slate.

POLLS BIG VOTE

Mrs. Hoff's name had been brought before the nominating committee when it was shown that it would be 1916 before a woman from the western part of the state might appear on the state presidential ticket if they failed to get re-nomination at this time.

The successful Mrs. Hoff, who polled 561 votes to her rival's 333, was on the platform during the reading of new officers. She returned to the platform during the reading of the slate of incoming officers. She returned to the platform during the reading of the slate of incoming officers.

NAME MRS. KIMBALL

Mrs. J. Anton de Haas, the long-time office seeker, is the retiring president of the Belmont Women's Club. She describes herself as neither a Republican nor Democrat—just the best-man voter.

Of the 719 registered delegates eligible to vote in the club polls, 661 cast their vote for the following new officers:

Mrs. John H. Kimball of Boston and Danvers, president; Mrs. Henry W. Hildreth of Winchester, first vice president; Mrs. David A. Westcott of Dorchester, second vice president; Mrs. Herbert F. French of Braintree, third vice president; Mrs. Burr J. Merriam of Framingham, recording secretary; Mrs. George A. Mellen of Lawrence, corresponding secretary; Miss Beas artist of Lynn, clerk; and Mrs. Charles L. Fuller of Brockton, treasurer.

CITY TO HAIL NRA DEATH

Next Wednesday—May 27—will mark the first anniversary of the United States Supreme Court's decision which ruled the NRA unconstitutional.

Throughout the United States, meetings commemorating this historic occasion will be staged. Prominent citizens from all walks of life will address these gatherings. In Boston several patriotic organizations are formulating plans to hold observances.

A meeting will be conducted in historic Faneuil Hall, Cradle of American Liberty, which several noted speakers will address. The affair will be non-partisan and free from all political entanglements.

Plans are also underway by patriotic societies to broadcast a radio program throughout New England.

Annulment Denied On Ride Bridal Plea

Salem, May 21—Judge Harry B. Dow today turned down the annulment petition of Harry Rantz, 30, Beverly bond salesman, who said he and Dorothy Silva, 23, of Salem street, Somerville, had married May 3, 1933, at the end of an auto ride to Kittery, Me.

Rantz had testified that they were riding with friends that day. When they got home again he said, his bride told him to forget the wedding and then departed, returning no more. Judge Dow ruled Rantz had not sustained allegations of fraud on his bride's part.

President Asked to Save Slayers

San Francisco, May 21 (AP)—Presidential intervention appeared the one coming hope today of Alexander Mackay and Joseph Krasty to escape hanging tomorrow for their part in a fatal San Quentin prison break.

Gov. Frank P. Merriam announced he would not grant another reprieve to the pair. Attorney for the condemned men, yesterday asked Sir Ronald Lindsay, British ambassador, to appeal to the White House for an additional stay of execution. Mackay is a British subject.

RICHMAN BROTHERS

FINE CLOTHES MAKERS SINCE 1879

The suits in this photograph taken from our own regular stock.

YES, WE SAID THEY ARE RICHMAN BROTHERS CLOTHES, \$22.50

YOU HEAR it every day. "What! Is that a Richman Brothers suit? You paid only \$22.50? Why, if you hadn't told me, I'd have sworn you paid at least twice as much."

Nearly every Richman Brothers customer has had this experience. There are folks who just can't believe that clothes as fine, as smart, as well fitting as ours can be bought for as little as \$22.50.

Luckily for their pocketbooks and appearances, more and more men are finding this out every day. Vain pride in paying high prices is gone. Nowadays, it's value that counts, and when men want value, they just naturally turn to Richman Brothers.

Now is the best possible time to become acquainted with Richman Brothers Clothes because our selection of summer, sport and business clothes is the greatest in our 57 years of clothes making. Look!

"You don't have to be rich to enjoy rich whiskey!"

OLD QUAKER RULE NO. 51 DISTILLING

For making quality whiskey, there's no substitute for the rich, flavorful grains grown by the American farmer in the U.S.A.

Friendly trouble to your taste, that's our purpose

See how—you get a barrel of quality in every bottle

Old Quaker sticks to all the rules of fine distilling, though it's sold at a friendly price

Old Quaker knows you don't want to have to pay a barrel of money for your whiskey. That's why Old Quaker straight whiskey is so friendly to a fellow's purse. But Old Quaker also knows you want good whiskey—what you'd really call rich, mellow whiskey. And as far as Old Quaker knows, there's just one way to give it to you. Stick to each and every rule of fine distilling! Old Quaker has always done that. It doing that now. And always will! Make a date to meet Old Quaker today!

BETTY ALDEN

on 'Beacon Hill'

Eleanor Gibson, Amor Hollingsworth
Guests of Honor at Luncheon

By BETTY ALDEN

WHEN THE SUMMER season arrives, the commanders of the social wave move their bases of operations from Beacon Hill out to the small, picturesque villages along the seacoast.

And this week-end officers of the army of occupation will hold their first parties in Newburyport and Cohasset, the strategic points at extreme ends of the North and South Shores.

To celebrate their early victories and lay plans for a successful summer campaign.

The Newburyport party promises to be one of the most pleasant of the early season country affairs. It is to be a large luncheon for Eleanor Gibson and Amor Hollingsworth, Jr., one of next month's outstanding bride couples, and given by Helen Moseley at the summer home of her parents, Mr. and Mrs. Frederick Strong Moseley of Beacon street.

Mrs. Moseley and her other daughter, Harriet, have just returned from Hot Springs in time to be in on the fun and others who will be present include Mrs. Kirkland Hays Gibson, mother of the bride-to-be; Betty Soule, Evelyn Hollingsworth, sister of the bridegroom-to-be; Mr. and Mrs. Kirkland H. Gibson (Jane Bucklin), brother and sister-in-law of the bride; Schuyler Hollingsworth, Ronald Lyman, Jr. and Zebadiah A. Adams, Jr.

The hostess, Helen Moseley, is to be one of the bridesmaids at the Gibson-Hollingsworth wedding on the 6th of June in the Church of the Redeemer in Chestnut Hill.

Mrs. Edward W. Morris (Ruth Gibson) is coming on from her home in Bethlehem, Pa., to be matron of honor, and others in the procession will be Miss Soule, Miss Hollingsworth and Mrs. Gibson, Jr.

This evening this popular bride couple will be the guests of honor at a dinner party which Mr. and Mrs. Russell Robb (Katharine Armstrong) are giving at their Concord home.

Mr. and Mrs. Stanley C. Whipple are also giving a luncheon Sunday afternoon, at Cedar Lodge, their Cohasset home, to present their daughter, Anne. All Miss Whipple's sister, debs have been invited to come and bring their bathing suits, for, weather permitting, there will be a swimming party later in the afternoon. The new debutante attended the Masters School at Dobbs Ferry and is graduating this June from Beaver Country Day.

Another of Anne Whipple's classmates who has already made plans for her debut is Eleanor Van Kleef of Brookline, whose parents, the Walter L. Van Kleefs, will present her at a tea dance at the Ritz-Carlton on December 5.

F. Haven Clarks Open Summer Home

AND SPEAKING OF SOCIALISTS moving to the seashore and country. . . the F. Haven Clarks have opened their beautiful home on Swallow Cove road, Nahant, where their yachts, Sally Anne, Jr., Joann II, and Jazz, will soon be straining at their anchors, waiting to take the Clarks, young and old, out on gay sailing parties.

Mrs. Clifford J. Fuller has moved her family out to their country home in Gloucester to make the final preparations for Jean Fuller's wedding to Gardner E. Prouty, Jr., of Littleton. The wedding will take place on the 27th of June in the Gloucester Church, with a reception at The Maples, the Fuller residence.

The usual little postscript "no date has been set for the wedding" accompanies the note we received yesterday from Mr. and Mrs. Henderson Inches of Chestnut Hill, announcing the engagement of Mr. Inches' sister, Miss Louise Brimmer Inches, to Henry Seton of New York and Cambridge.

Miss Inches is the daughter of the late Mr. and Mrs. Charles E. Inches of Boston and a sister of Charles E. Inches of South Hamilton. Her fiancé is the son of Mrs. Alfred Seton of New York and the late Alfred Seton, and his sisters are Mrs. George G. Somers of Tuxedo Park and the Duchess de Feltre de La Roche-Guyon, Brittany. He was graduated from Harvard in 1917 and is now working at the Agassiz Museum.

Fashion Show in Hamilton

RODDY EMERSON is a crowd of her friends are sure to be among the many socialites seated around the tea tables in Hamilton Hall tomorrow afternoon to watch the fashion show being given under the auspices of the North Shore Branch of the American Association of University Women for the benefit of the Mary E. Woolsey Fellowship Fund. . . for Roddy's sister, Mrs. Robert H. Miller (Margaret Lindsay Emerson), is to be one of the mannequins in the show. . . Mrs. George Dunham, Mrs. Wallace Pierce, a recent bride, and Mrs. Joseph Langmaid are also to be among the prettiest of the models.

Boston will gain another out of town bride on June 5 when Frankford S. Sumner, Jr., of Weston and Miss Shirley Shuttleworth of Amsterdam, New York, are united in marriage at a large wedding in Amsterdam.

Glimpsed through the lower half of our bi-focals on a pleasant sunny day this week. . . Alexander Grant treating Mrs. Edith Recker Curtis, (she that was Mrs. Charles P. Jr.) to luncheon at one of society's popular rendezvous. . . Paul Drummond Rust and her young son, lunching with Mr. John Bottomley. . . Mrs. Herbert Jaques, very smart in a brown figured silk summer suit with narrow fur piece, discussing plans for parties to keep the ladies of 1911 busy while their collegiate husbands band together in Harvard yard to celebrate their 25th reunion. . . Mr. Jaques is marshal of the 1911 reunion.

'Y' Delegates
To Report
Miss Hood
Is Bride

At a "convention" dinner this evening at the Y. W. C. A., the Boston delegates to the National Y. W. C. A. convention which was held in Colorado Springs, Colorado, last week, will report on their activities and experience. Mrs. Richard P. Fuller, Mrs. Robert Douglas Booth and Miss Mildred Wilcox are three of the delegates who will report.

Among those who are planning to attend are Mrs. Robert G. Dodge, Mrs. Sydney M. Harrison, Mrs. William C. Blackett, Mrs. James C. Fox, Mrs. Charles Todd Wolfe, Mrs. Harold V. Hyde, Mrs. Emma C. Farwell, Mrs. John C. Johnston, Mrs. Charles Allen Porter, Mrs. Leon Rapp, Mrs. William H. Robey, Mrs. Richard K. Thordike, Miss Christel W. Wilkins, and Mrs. Steven Bayard Wilson.

The Rev. George O. Ewald performed the ceremony in Christ Episcopal Church in Waltham Sunday afternoon. A reception followed at the home of the bride's parents.

The bride was a long tulle of rose point lace over her white satin gown. The tulle veil was caught to a coronet of lace and orange blossoms and fell to form a train in the back. Miss Gertrude MacDonald, the maid of honor, wore a spring dress of peach organdy with a leghorn hat and carried a bouquet of spring flowers.

The bridesmaids, Miss Louise Tibbitts of Cambridge, Miss Bayly Cadbury and Mrs. Ruth Winzette Noonan, of Waltham, were dressed alike in pastel shades of yellow blue and orchid orchids and picture hats, and carried large bouquets of spring flowers. Miss MacDonald, Miss Tibbitts and Miss Cadbury were all classmates at the bride at Radcliffe College.

Henry Arthur Carlton of Maynard acted as his brother's best man and the ushers were Hollis Barlow and Raymond O. Drechter, both of Maynard, and Richard F. Macdonald of Waltham, brother of the bride.

The bride was graduated from Radcliffe College with the class of 1933. She is a member of Phi Beta Kappa and the Kappa Phi Society. Mr. Carlton studied business administration at Harvard. After their wedding trip the couple will reside in Waltham.

Regis Seniors
Celebrate

ALTHOUGH Regis College students have just emerged from the final examinations, there's enough pep and ingenuity left to plan a senior week which promises to eclipse all in the memories of these young collegians.

Betty McLean of Newton is directing plans for the week which features senior spreads, class day, horse show, Commencement play and other jolly events.

Commencement week opens with a dramatic "The Piper of Hamelin." Talented graduates taking the leading roles include Rita Harrington of Framingham, Agnes Walsh of Weston, Cecilia McDowell of Brighton, Mary Hamilton of Somerville and Ellen Kennedy of Waltham.

In the afternoon the seniors will display their patriotic ability with a drama, "The Piper of Hamelin." Talented graduates taking the leading roles include Rita Harrington of Framingham, Agnes Walsh of Weston, Cecilia McDowell of Brighton, Mary Hamilton of Somerville and Ellen Kennedy of Waltham.

Banquet

Tuesday, alumnae of the college will gather at their annual labor for a banquet in the patio of the administration building, and they will also take part in the sports day Wednesday. Freshman class is scheduled to entertain with a circus. . . there'll be a bit of competition between the alumnae and the seniors in the horse show event. . . all to be climaxed by a hoop race. . . the winner scheduled to be the group's first bride.

For the spread and dance Thursday. . . the campus will be gay with varicolored tents and the foyer of the building will be festive with balloons, palms and cut flowers.

Decorations are in charge of Agnes Walsh of Weston. Serving on this committee are Rita Collins of Roxbury, Helen Leonard of Framingham and Marie Jossell of Leominster.

Climax of Week

Chairman of the senior soiree, Chairman of the senior soiree, is Frances Bossett. Her aides include Lillian Dowling of Milton, N. H., Helen Moynihan of Worcester and Beatrice Hastings of Salem who has charge of the refreshment committee.

Also serving on the soiree committee are Nathan Sanford of Fall River and Marie Clancy of Providence, R. I.

On Friday night, seniors will prepare to meet boards and sheepskins for frilly evening gowns and take themselves to the senior promenade at the Hotel Sheraton.

The climax of the week, Betty McLean, on whose shoulders rest the success of the week, is chairman of the party which features one of Boston's ace bands, a series of song and dance numbers and novel events of all types.

Future Bride
Honored

Mary Vass, daughter of Mrs. Joseph Vass of Newton Center, entertained last night for Christine Herigen of West Roxbury who becomes Mrs. John Vassling at a morning ceremony on June 15.

Christine is an alumna of St. Joseph's Academy and Regis College in Weston.

Included among the guests were Celia Barrett of Dorchester, Mary Quinn of Lowell, Mary Collins of Brighton, Margaret Callahan of Boston, Mrs. Frank of Boston, Miss and Isabelle Murphy of Stoughton.

Others attending the pre-nuptial fête were Mary and Rita Carroll of West Roxbury, Mary Fitzgerald of Allston, Frances O'Hara of South Boston, Mary Leary of Dorchester, Mary Drury of Roslindale and Helen Flynn of Waltham and Margaret Bonilla of West Somerville. Others included Marie Westling of Dorchester, Evelyn Gundolf of Roslindale and Ursula Hansen of Roslindale.

Mary Vass will be maid of honor at the pupkins which take place at the Holy Trinity Church in Boston. Preceding the bride afterward will be these bridesmaids, Mary Quinn of Lowell, Mary Carroll of West Roxbury, Mary Fitzgerald of Allston and Celia Barrett of Dorchester.

Henry Westling will serve as his brother's best man.

Modern REFRIGERATION PASSES IN REVIEW!

Protection of Health

Modern refrigeration, through its scientific preservation of food, provides vital protection of the family health. For this reason alone it is unquestionably the most essential home furnishing unit, without which no home is complete. Improvements in all types of refrigerators insure maintenance of constant temperature below 50 degrees, which exhaustive tests have shown is the required standard, to retard the growth of bacteria. All refrigerators of 1936 have free circulation of air throughout, another requisite for keeping food fit. While a refrigerator is a cold storage plant, a convenient source for ice, and a dessert maker, it is most of all a guardian of HEALTH.

An Aid to Food Budgets

A refrigerator is one of the greatest aids in the thrifty operation of the family food budget because it makes advance planning possible and permits the homemaker to buy in quantities, or when prices are low, thus effecting worthwhile savings. This is especially true on staple foods, such as canned goods, butter, cheese, eggs and fruits with natural coverings. Advance planning not only saves money but makes improved meals with a wider variety of foods possible. Leftovers, which would otherwise spoil, may also be preserved... another item of saving. Tests of economical marketing over a month's period have shown that on 34 items, the actual saving with a refrigerator amounted to \$4.71.

REFRIGERATORS ARE MODERN SERVANTS

With a new automatic refrigerator, the hand of the modern housewife is freed from the burden of the daily routine. The refrigerator is the modern servant that does the dirty work of the kitchen. It keeps the food fresh and cool, and it does it all for you. The refrigerator is the modern servant that does the dirty work of the kitchen. It keeps the food fresh and cool, and it does it all for you. The refrigerator is the modern servant that does the dirty work of the kitchen. When twenty leading housewives...

GREENS FOR DIET Aid Health

During the summer months, when the diet is green, the health is better. The green vegetables are abundant in vitamins and minerals, and they are easy to digest. They are the perfect food for the summer months.

KEEPING DOUGH COLD

First Aid to Cookie Cooks

Yeast doughs can do a grand job of making things with end. When used, it cuts down on baking time because large batches of refrigerator biscuit dough and refrigerator cookie dough can be stored for a week and used in the amounts needed. The dough can be stored in airtight containers, and it will keep for a week.

Crisper Helps to Keep Vegetables

The crisper is a feature on many modern refrigerators. It keeps the vegetables fresh and crisp for a longer time. It is a great help to the housewife who wants to keep her vegetables fresh and crisp.

Sink Height and Size Important

At the University of Chicago, an extensive study has been made to determine what size and height of sink are most convenient. A sink 18 inches wide, 22 inches long and 8 inches deep is ideal. You can wash dishes quickly in it because the drain boards are within easy reach. The height depends upon the height of the worker.

Fork Creams Best

When creaming butter with fork, it is the best method. It is easier to use a strong fork than a spoon. The fork is the best tool for creaming butter.

"SCIENTIFIC" COLD A HEALTH ESSENTIAL

By MARTHA LEE

Volumes have been written about the many advantages of modern refrigeration, the extra leisure it affords the woman in the home, the great assistance it gives in meal planning, the possibilities it allows of buying food in quantity and the delicious frozen desserts that can be concocted with little or no effort. But the greatest of all these and the thing most appreciated by the modern housewife is the scientifically controlled temperature that it holds day after day without ever slowing down or letting up in any way.

Tiresome and faithful, there to constantly guard the health and well-being of the family, we know that temperature has much to do with the formation of microbes and, in fact, proven by science, from the time of the great Plague on. Foods should be stored at 50 degrees F., or below, for proper preservation of food and prevention of disease.

The refrigerator is the only device that can keep food at a constant temperature, and it is the only one that can keep food fresh and healthy. It is the only one that can keep food from spoiling and it is the only one that can keep food from becoming a health hazard. It is the only one that can keep food from becoming a source of infection and it is the only one that can keep food from becoming a source of disease.

It is the only one that can keep food from becoming a source of infection and it is the only one that can keep food from becoming a source of disease. It is the only one that can keep food from becoming a source of infection and it is the only one that can keep food from becoming a source of disease. It is the only one that can keep food from becoming a source of infection and it is the only one that can keep food from becoming a source of disease.

It's Silent

The tiny gas flame in the Electrolux insures a steady, uninterrupted flow of cold and absolute silence because there are no moving parts.

ELECTROLUX IS SILENT IN OPERATION

There is a sound to be heard when you open the door of an Electrolux refrigerator. It is the sound of silence. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold.

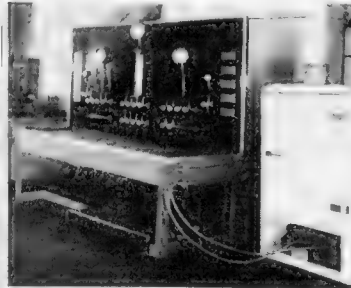

It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold.

Jellied Soup Easy With Refrigerator

There is a sound to be heard when you open the door of an Electrolux refrigerator. It is the sound of silence. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold.

It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold.

A Testing Laboratory

Even though automatic refrigerators are tested at the factory, shaking down town retailer goes a step farther by using the laboratory for a final check-up before refrigerators are delivered to customers.

Hurry-Up Gelatine

When making desserts or salads, gelatine and then are wanted. Place the mold containing a hot water mixture in the refrigerator. The gelatine will set in a few minutes.

Vegetable Teams

Two vegetables served together help to use leftovers. Mixed carrots and peas are fast well known but try spring beans and corn. Turnips and potatoes are pleasantly good if mashed together made into patties and fried. Then there are a kind of mixed vegetable salad.

NATURE'S COLD NOT SAFE

In these days of wide education on the benefits of refrigeration, it is a strange to find people who still believe that the window box is the best place to store food in the winter time. There are many reasons why this is not true. First of all, the window box is not a refrigerator. It is a box. It is a box that is not designed to keep food cold. It is a box that is not designed to keep food fresh. It is a box that is not designed to keep food healthy.

For 'Teen Age Party

What to serve at the teen age party is a question which is answered in the following menu: French Refrigerator Cake. Cook 1 cup butter with 1 cup condensed milk and heat in 2 cups. Drain cooked dried pineapple and pour mixture over. Sprinkle with 1 cup nuts. Fold 1/2 cup beaten egg whites and 1/2 cup sugar mixed extract. Spread between and on top of sponge layers. Garnish with fruit. Cook 1 cup of cake with whipped cream.

Bacteria Growth Checked by Cold

Science of foods by means of cold. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold. It is the sound of a tiny gas flame. It is the sound of a steady, uninterrupted flow of cold.

Using Leftovers

There are a number of ways in which you can use your leftovers. You can use them in a variety of ways. You can use them in a variety of ways. You can use them in a variety of ways.

SILENCE IS THE FIRST THING YOU NOTICE ABOUT ELECTROLUX

Remember, this silence means more than comfort... it indicates a basically different operating method that offers many important exclusive advantages

There is nothing more to be said about the silence of the Electrolux. It is a sound that is not heard. It is a sound that is not heard. It is a sound that is not heard.

It is a sound that is not heard. It is a sound that is not heard. It is a sound that is not heard. It is a sound that is not heard. It is a sound that is not heard.

It is a sound that is not heard. It is a sound that is not heard. It is a sound that is not heard. It is a sound that is not heard. It is a sound that is not heard.

discrepancy. Parts that do not move cannot wear. There's a saving in that. Constant perfect frost protection means that you can buy in quantity and take advantage of special discounts. Another saving. And the remarkable low running cost of Electrolux saves pennies every day—dimes every week!

And there's nothing theoretical about these savings. Many owners tell us they have actually paid for their Electrolux with these savings over a reasonable period. You'll probably find that a new Electrolux will cost less over a period of years than "getting along" with a less efficient refrigerator.

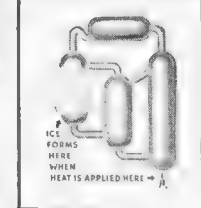

Electrolux popularity has reached the proportions of a national trend this year. See why by visiting your local gas company or gas appliance dealer. Find out why owners all agree that "Electrolux offers you more."

Terms on Electrolux are exceedingly liberal. Less than a day brings you all the joys and savings of Electrolux.

A MODERN GAS APPLIANCE NOW! BUDGET TERMS LESS THAN 15¢ A DAY

NO MOVING PARTS HERE! This simplified diagram shows why there are no moving parts here. Parts that do not move cannot wear. This means long service life. Factory service is always on hand.

FOOD Is Often WASTED

An average American family, according to a recent investigation, wastes approximately 15 percent of the food purchased. This is due to many causes, including lack of knowledge of proper food storage and preservation methods.

Many families waste food because they do not know how to store it properly. For example, they may not know how to freeze food or how to use the refrigerator's compartments.

Proper storage is essential for food preservation. Families should learn how to use their refrigerators efficiently to avoid wasting food and money.

When using the refrigerator, it is important to keep the door closed as much as possible. This helps maintain the cold temperature and prevents the refrigerator from working too hard.

Another way to avoid food waste is to plan meals ahead of time. This helps families use the ingredients they have on hand and avoid buying too much food.

By following these tips, families can significantly reduce food waste and save money on their grocery bills.

Proper food storage is a key to a healthy and economical household. Families should take the time to learn how to use their refrigerators properly.

With a little knowledge, families can avoid the frustration of food waste and ensure that every dollar spent on groceries is well-used.

Remember, the refrigerator is one of the most important appliances in the kitchen. Use it wisely to keep your food fresh and your wallet full.

For more information on food storage and preservation, consult a home economics expert or a food preservation guide.

One of the Pioneers

Makers of Leonard were pioneers in refrigeration, and through the years have passed progress by constantly improving their product, until today this modern electric refrigerator has won a high place in public favor.

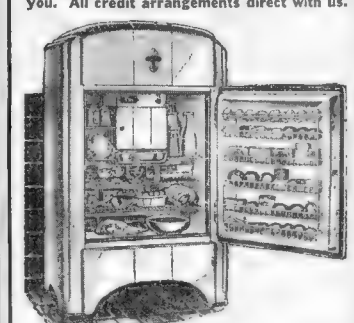

SAV-A-STEP IS NEW

Among the features which make the new 1936 Leonard refrigerator a real saver is the "Sav-A-Step" feature. This feature allows the refrigerator to operate at a lower temperature when the door is closed, saving energy and keeping food fresher longer.

The "Sav-A-Step" feature is a simple yet effective way to reduce electricity costs while maintaining the freshness of your food. It is a true innovation in refrigerator design.

Buy Your Refrigerator As You Buy Your Furniture, From a Firm You Know, and Can Trust.

METER MISER A FEATURE OF FRIGIDAIRE

The Frigidaire refrigerator is known for its efficiency and reliability. The 'Meter Miser' feature allows users to monitor electricity usage, helping them save money on their utility bills.

ONLY THREE PARTS The Frigidaire refrigerator is made of only three main parts: the compressor, the condenser, and the evaporator. This simple design makes it easy to maintain and repair.

The Frigidaire refrigerator is a true 'Meter Miser' because it uses electricity efficiently. This means you can keep your food fresh without paying too much for electricity.

Estimating Size Of Refrigerator The question of how large a refrigerator to buy is a common one. A good rule of thumb is to estimate the size based on the number of people in the household.

The most often used measure is two cubic feet per person for small families, and three cubic feet per person for larger families. This ensures there is enough space for all the food you need to store.

For a family of four, a refrigerator with at least 12 cubic feet of storage space would be ideal. This provides plenty of room for fresh produce, meats, and dairy products.

Here's the greatest refrigerator improvement in years. On its hinges or snapped on the door, Sav-A-Step actually puts that hard-to-reach back shelf space at your fingertips, saves space, saves current. Only Stewart-Warner has it. Yet it's just one of a dozen great Stewart-Warner improvements.

A Kitchen Essential

Conveniences of Crosley Stressed

The purchase of an automatic refrigerator is one which usually and rightfully involves a great deal of family council, of shopping and comparison of the various features offered, and consideration of the particular needs of the family making the purchase. Not merely because it involves more than the average expenditure of money but because it plays such an important part in health and economy, comparison is welcomed by the makers of the Crosley Shelvador Electric Refrigerator.

The makers of this modern refrigerator feel that the family acquainted with the Shelvador, the most modern of modern refrigerators, should know the modern necessities of the kitchen because of the many conveniences of this refrigerator. It is in these conveniences that the essential household item.

Of highest importance is the fact that the Shelvador is a true refrigerator. It does not merely keep food from spoiling, but it keeps it fresh. It is in this respect that the Shelvador is a true refrigerator. It is in this respect that the Shelvador is a true refrigerator. It is in this respect that the Shelvador is a true refrigerator.

THIS IS LIFE

By Robert E. Rogers

I spent a couple of hours Tuesday last down at Hyannis on the Cape. Though it was a bit foggy in the morning and pretty dark and windy in the afternoon, the noon hours were perfect.

We drove down the main street through the luxury shops, which after June 1st will be gay and crowded with expensive goods but which are now empty and deserted, undergoing painting, whitewashing and glazier work. A pass the real estate agent complained bitterly to another that rentals were going very slowly.

So we turned off the main road down to Hyannisport and Cragsville and parked by the edge of the beach in the long, tough beach grass. There we fed on sandwiches we had brought and a quart of local milk. The wind blew saltily and powerfully in our faces and the sun shone and everything was very pleasant indeed, thank you.

Todd Lecture Scheduled For Each Teacher College

After lunch, I went up to the little campus of the State Teachers' College, where I was due to deliver one of a series of what are called the Todd lectures.

There are three pleasantly faded, red brick buildings of an elder generation, a couple of classrooms and a girls' dormitory with their colored window curtains blowing in the stiff cool wind. I met President Herbert H. Howe, a Cape product, born at Dennis and proud of it, and I spoke for an hour in a sunny room to about a hundred students and guests, the senior girls wearing black caps and gowns, and had a pleasant time there, too.

I am having a highly interesting experience giving these Todd lectures to each of ten teachers' colleges in Massachusetts, including the Massachusetts School of Art here in Boston. It takes a certain amount of fitting in both for me and the schools, but everyone has been courteous and obliging, and I am enjoying myself thoroughly.

I have already visited the Worcester college, out Tainwick was, a splendid new building only a few years old and the college in Lowell on the banks of the Merrimack, its slopes still white with silt and rubbish, shimmering in the terrific heat of Tuesday a week ago. But the lecture room was cool and the staff invited me to tea afterward and were nice, pretending not to notice the toes I had stepped on, pedagogically speaking.

Then Salem, with its two big buildings of yellow brick much like the Cambridge Latin School I attended some thirty years ago; and the interesting college at Bridgewater, which is on a grander scale than the others, because it is the daddy of them all.

Horace Mann Will Be Honored Next Week

Next year Massachusetts will honor Horace Mann and celebrate the 100th anniversary of the founding of the Board of Education and the first Normal School in the United States.

Bridgewater is the largest of them all, with six hundred students, a half a dozen buildings, including a gorgeous new headquarters building with great white pillars, built to replace the historic one destroyed by fire some years ago.

The girls live in dormitories here, the boys in lodgings scattered over the town. There is a campus and tennis courts and considerable of a college atmosphere. And on Tuesday, Hyannis, as I have said.

Before the first of June, I still have to visit Framingham, Fitchburg, North Adams, the School of Art in Boston and in Westfield.

When I have made the rounds, I expect to have a pretty good idea of the Massachusetts system of teachers' colleges from North Adams to Hyannis, and some idea of what they severally specialize in. For there is an interesting system of specialization, of which I propose to write later when I have an opportunity. For the present, I can only testify to the pleasant surroundings in which the girls (and a few boys) work, and what a good time I am having on the job.

HANEY ON COAL INDUSTRY

Social Problem NEEDS SOLUTION BY CLOSING Higher Cost Mines

By LEWIS HANEY
(Professor of Economics, New York University)
New York, May 21.—Unquestionably, there is a social problem in the coal industry.

We find there a "bad competitive situation," with poor profits, poor wages, and waste of natural resources.

It is immediately due to overcapacity. On the one hand, there has been increasing competition from other fuels and sources of power.

On the other hand, it is easy to start new small-scale mining operations or to resume them, while it is hard to stop the larger ones.

Since it is difficult to get in the large specialized labor groups which depend upon the industry, and in the close connection with railways which want coal profits.

But surely the coal provisions of the Guffey act are not the way to deal with this problem.

For one thing, this act approached the matter as being primarily a labor problem, and proposed to remedy low wages by merely legislating. But when wages are raised this way, the costs of production are increased.

This must have one of two results: It will raise prices and thus reduce the quantity of coal consumed, or it will cut profits and thus reduce the demand for labor in the industry. Both would increase unemployment.

For another thing, it tried to deal with the problem without sufficient allowance for differences in cost. This is usually the case with such government meddling, just as it is with private monopoly.

Whenever any power attempts to deal with a pure industry by keeping everybody in that industry gone, the situation is only made worse. Whether it is a monopoly which tries to maintain prices so that all companies can make a profit, or the government which tries to maintain wages and employment for labor, the result is the same. The over-capacity is continued, and the quantity demand is reduced.

Incidentally, we should note that four of the Supreme Court judges took this view, and that the majority of the Federal Reserve Bank argued that prices can be controlled separately from wages.

This may be true as a matter of fact or literature, but it is not true as a matter of economics and fact.

Prices are largely fixed by expenses, and a large part of expenses is wages. Wages are, in turn, largely limited by prices, and the result is a vicious circle.

As a matter of fact, federal price-fixing would require not only complete control over the industry, but would require control over competing industries. Look at the railways.

There is only one socially beneficial and therefore wise way to approach such a problem. That lies in eliminating the inefficient or high-cost producers.

That is the only way to get cheap coal and at the same time allow decent wages. (The most efficient mines could sell coal cheaply and still pay good wages.)

Ordinarily, competition does the job of eliminating inefficient producers pretty well. It must be granted, however, that if carried on in the past, it has not worked well in the coal industry. What is the answer?

Either the government should take possession of all coal, and run the industry, or competition should be regulated so as to make it more effective.

The first alternative would, I believe, result in great inefficiency and a political mess.

So the answer lies in determination of what mines have been unprofitable over a period of years, and refusing them a license to sell coal in interstate commerce. New mines should be refused such a license.

For the rest, sales book, such as authorized in the Appalachian Coal Law, should be left.

Two sure things are there: (1) We do not need more coal, and higher prices, and higher wages would reduce real employment.

FEDERAL MIXED Plans Peril NATION Commodity PRICES VALUES EDGE HIGHER

BROOKS WARNS AT CONVENTION

Atlantic City, N. J., May 21.—Fear that commodity prices will be raised by the Federal Reserve Board, and that the nation's business will be paralyzed, was expressed here by Frank F. Brooks, president of the Pennsylvania Bankers Association, at the annual convention of the present legislative trend against business, banking and industry.

He addressed the forty-second annual convention of the association.

Continued increase of the national debt, he said, is the real danger to the credit of the United States, and the "purchasing power of money" is being destroyed.

"All forms of legislation which are based upon the fact that the country is in a state of emergency," he said, "are a threat to the credit of the United States."

Under the plan, the Federal Reserve Board is to be given the right to fix the prices of commodities.

But, he continued, to do this, the Federal Reserve Board must have the right to fix the prices of commodities.

He said that the Federal Reserve Board is now doing this, and that it is doing it in a way that is harmful to the country.

He said that the Federal Reserve Board is now doing this, and that it is doing it in a way that is harmful to the country.

He said that the Federal Reserve Board is now doing this, and that it is doing it in a way that is harmful to the country.

NEW U. S. BORROWING To Bolster Treasury Funds

By International News Service
Washington, May 21.—A new \$100,000,000 government borrowing, as part of the Treasury's new financing program, was announced today in administrative circles.

The Treasury advanced no details regarding the new borrowing, but it is expected that the new borrowing will be made in the form of a series of small issues.

The borrowing will be repaid to meet demands for cash during the next six months. It is expected that the new borrowing will be made in the form of a series of small issues.

Building FEATURES Reports

By Hugh E. Bradshaw
Construction activities feature current reports on New England business conditions, with building permit gains in the Boston area a particularly bright spot.

According to Dun & Bradstreet's weekly survey of trade conditions building permits granted by 55 municipalities in Massachusetts showed an increase of 21.6 per cent in April 1936 over the same month 1935.

Suppliers of construction materials report that the increase in building activity is reflected in the demand for materials. The building of new houses is particularly active, and the demand for building materials is correspondingly high.

Interpretive of politics, business and labor. That is the theme of the Boston Evening American's special section on the Boston convention, which is being held in the city this week.

Notwithstanding the report of extraordinary withdrawals of gasoline for this week, it is not expected that the gasoline shortage will be a serious one.

Continuation of such a trend would effect unrestricted production of goods. However, the large withdrawals of gasoline for this week are not expected to be a serious one.

Though in late July and August, the gasoline shortage will be a serious one. The gasoline shortage will be a serious one.

As this is the case, it is not expected that the gasoline shortage will be a serious one. The gasoline shortage will be a serious one.

STOCK Prices Work HIGHER

UTILITIES IN DEMAND

New York, May 21—The plodding recovery gained further headway in today's stock market.

While trading continued at a snail's pace, the utilities and scattered industrial were bid up fractions to a point or more.

The general run of news was about the optimistic, but most buyers were wary and sellers tight. Among the principal share gains at the opening of the day:

Public Service of New Jersey, American Water Works, New York Edison, and others.

Traders divided their attention between the ticker tape and stock exchange news.

Since the first of the month, which saw particularly marked in the territory west of Cleveland all the way to the Pacific Coast.

A little more hope for the oil market was seen in the action of the Louisiana producers in restricting the flow of a number of wells.

The French franc, in initial for the day, was off 1-16 of a cent at \$49.75.

SOX TRIP SUCCESS DECIDED TODAY

AUSTEN LAKE

Old Gene's 7 $\frac{3}{4}$ Baby, Irishmen With Clubs, Red Sox Big Moment

JACK ONSLOW, THE OLD RED SOX coach who is now a radio philosopher for several sponsored hours, was glaring down from the heights at Bees' Field. He is a little thicker through the withers now and there are networks of sun-wrinkles under his eyes. But, as a Buffalo, N. Y., kid, in the long ago, I used to watch him catching for that city, a blocky, burly man with a first like a smoked shoulder and a lump of eating-tobacco in the slack of his cheek. He was a grand catcher and a favorite among the pantaloons wails who knew all the loose boards in the outfield fence. So I was thinking how Time picks up people from one scene and transposes them through the years to another, so that now...

"I was just thinking," said Jack, "how time picks up people from one scene and transposes them through the years to another, so that now I am looking down at this kid, Gene Moore, and remembering the day he was born. And Jack went on, remembering how young Gene's daddy, Old Gene, had been his battery mate in Dallas in 1909. And the August afternoon when Old Gene had waved a sheet of telegraph flimsy and announced, 'Jack, I got news. I am the parent of a baby boy, hefting 7 and $\frac{3}{4}$ pounds. I am naturally very proud. So I am asking the favor of your company to-night for a goshamnighly, rip-snorting beer and pretzel binge in the Emporia beverage parlor at 8 p. m. sharp.' 'And that,' said Jack, pointing his crooked catcher's finger at the Bees' right fielder, 'is the 7 and $\frac{3}{4}$ pound baby down there. And I am up here. And his daddy, Old Gene, is growing cotton, tobacco and sweet potatoes somewhere down in Texas.' The only reason he mentioned it, said Jack, was to show how Time picks up people and transposes them through the years.

IRELAND BRINGS OLDEST GAME

WHEN IRELAND'S TIPPERARY HURLERS visit Cambridge on Memorial Day, they bring a game whose taproots were set in the dim, medieval soil of Irish history before Spain's Armada was wrecked on its Western rocks and before the blond Vikings raided the coastal tribes and blended their blood with one of the world's most interesting peoples.

Hurling goes back to Ireland's earliest times. It is the oldest game in the world and the only one of its kind. Modern games, including golf, hockey, baseball, polo, Irish wrestling, are taught to youth in the dim, medieval soil of Irish history before Spain's Armada was wrecked on its Western rocks and before the blond Vikings raided the coastal tribes and blended their blood with one of the world's most interesting peoples.

No one appears to know how hurling was introduced into Ireland. Some say it was brought by the monks who were traveling in Ireland some years ago, a Keltic game and with native glances, it began when two ancient villages quarreled over a potato and resented the insult of a quarrel with their neighbors took sides.

Until fairly recently it was a male population of towns took part in the game, a visiting force for life and causing many fatalities. But since 1884, when it was Gaelic A. A. formed, real rules were introduced, though not so many as to interfere on line games. Original character, sides are limited to 15, including six forward, six backs, two centers and a goal guard and no substitutes are permitted until a player is severely laid out and physically unfit to continue.

HE DON'T OWE NOBODY NUTHIN'

SINCE LAST SUMMER WHEN Jimmy Braddock stunned the boxing business by chipping off Max Baer's heavyweight title, the Madison Square people have continually reminded Braddock publicly that they gave him his chance at fortune and fame. In return they demand the larger share of the fruit cake when he fights Joe Louis. Hear then the words of Braddock's manager, Joe Gould, on the subject. "We don't owe the Garden anything. When they put Jimmy in against Baer, they figured on picking up some quick sucker money before making the big killing with Louis. And they wouldn't have done it if the New York boxing commission hadn't insisted. You should have seen how sick they were when Jim slipped their meat ticket over."

"Before that they put Jimmy in against Corn Griffin, figuring to fatten Corn, not Jimmy. And they wanted to make John Henry Lewis look good by feeding him on Braddock. Then, when we needed money worst, they chiseled us down to cigarette money and gave Lasky \$5000. And when Lasky got a tummy ache and the fight was called off, they made us eat the \$500 we paid for training expenses and never gave us back a dime."

"So, when the Garden plays Dutch uncle and pads on the bighearted act, I say, 'Go get it in a double fight before July 29, or get ready to mix yourself some head-ache powders.'"

LAST MARCH, DURING HIS PRESS get-togethers in Sarasota, Fla., Joe Cronin was fond of dreaming word pictures of the rowdiedown series which were coming with the Detroit Tigers, rough and tumble wagers and the rival athletes shedding strips of their personal bark and reviving the old traditional rivalry of the Bill Carrigan-Toby Cobb era.

And Joe would draw tableaux of the Red Sox as champions and the Tigers, as defenders, going colicking down the penitential path and the final fight. But Detroit's luck out, Dickerson, Burns and Gumples have discounted them as a pennant repeater. So the big, early season showdown begins next Tuesday at Fenway Park, not with Detroit, but the Yankees in three games that will go far toward fixing the pennant champion of the two teams and deciding which is the slumper-dumpy. Cronin is saying he would staff on what Joe Ferrell, Lefty Grove, and Fritz Ostermeier or Fosty John Marmora, will be ready as starters. It is the Red Sox's first big moment.

Bee Hurlers Plagued By Heart Trouble

LACK Nerve in PINCH

CINCINNATI FINAL TODAY

By Bill Grimes
Anytime a pitcher fades as suddenly and completely as Jim "Tiny" Chaplin did in the Red Sox opener and the relief hurler, which in this incident was Danny MacFayden, starts aiming his pitches at the foe, the manager is invariably the goat.

During the first inning of the Red Sox opener at Cincinnati, the Red Sox were leading 1-0 and the Cincinnati Reds were leading 1-0. The Red Sox were leading 1-0 and the Cincinnati Reds were leading 1-0. The Red Sox were leading 1-0 and the Cincinnati Reds were leading 1-0.

Team Record of 6 Wins, Six Losses Is Good

By Joe Cashman

St. Louis, May 21—Whether it's success or failure which is to crown the Red Sox efforts on their first long road trip hinges on the inexperienced right arm of Memphis Jim Henry, who gets his second starting assignment against the Browns in the final tilt of the jaunt today.

It was the first time since the Red Sox left Boston for their first long road trip that the team's record was 6 wins and 6 losses. The team's record was 6 wins and 6 losses. The team's record was 6 wins and 6 losses. The team's record was 6 wins and 6 losses.
